Professional Summary

- Student pursuing B.Tech under JNTUH affiliation with a strong focus on Machine Learning and Data Science.
- Skilled in Python, MySQL, and advanced techniques in data analysis and deep learning. Self-employed ML developer with hands-on experience building predictive models and analytical solutions.
- Seeking opportunities to apply technical expertise in AI/ML and contribute to impactful projects.

Skills

- **Programming:** Python, SQL
- **Machine Learning & AI:** Supervised/Unsupervised Learning, Deep Learning, Neural Networks
- **Data Science:** Data Analysis, Data Cleaning, Data Visualization, Feature Engineering
- **Databases:** MySQL, MongoDB
- **Other Tools:** Git, Jupyter Notebook, Google Colab

Education

Bachelor of Technology (B.Tech) in Computer Science
Jawaharlal Nehru Technological University Hyderabad (JNTUH) — *Expected 2026*

Experience

Self-Employed Machine Learning Developer
Freelance / Independent Projects —

- Designed and implemented machine learning models for academic and personal projects.
- Applied data analysis and visualization techniques to derive insights from structured and unstructured datasets.
- Worked on deep learning applications including classification and prediction models.

Projects:

ASD Prediction App — *Streamlit, Random Forest*

- Built a medical analysis app for autism screening using Q-Chat-10 features.
- Integrated user login, prediction pipeline, PDF report generation, and automated email delivery.

Certifications *:*

- Complete Data Science, Machine Learning, DL, NLP Bootcamp **- Udemy**
